

# A DAY IN UGANDA

Children living in poor countries such as Uganda face many obstacles in their daily lives. That's why their Compassion centers and sponsors are so important! Play this game to experience a normal day in the life of a Ugandan child.

## SUPPLIES

- One six-side die
- 1 game token for each player [you can use coins or go to [compassion.com/exploreonline](http://compassion.com/exploreonline) to print out stand-up players]

## GAME RULES

- All player tokens begin on the "Home" space. The first player who gets back home and to bed first wins!
- On your turn, roll the die and move your game token that number of spaces. Follow the directions on the space you land on.
- Spaces with an action icon  mean you must perform a physical action.
- If your action requires you to move ahead or back, your turn ends when you reach the new space [don't follow the directions on the new space].
